Secretary to Govt,
Law Department

CE I

2/Mar

RM 1/2

18) submitted The D C Mandya has submitted two estimates one for the comprehensive drainage scheme and the other for Rs 20,000 for carrying out the urgent works of the scheme, as a I stage

19) It is not clear whether

the estimate for Rs 20,000 for the first stage is included in the comprehensive estimate or not. The note of the Chief Engineer for Irrigation at para 17 of his report on the estimate is also silent on this point. The Chief Engineer for Irrigation may, therefore, be requested to state whether the estimate for Rs 20,000 referred to is included in the comprehensive estimate and if so, whether the same is in order.

19/ submits with reference to paras 16 & 17 above.

20/ An enquiry may be made of the D.C. Mandya desiring as to whether the estimate for Rs 20,000 being the first stage of the drainage scheme is for taking up the work in the Bannur Extension or Eastern extension of the Mandya Town and what progress has been made with the preparation for taking up this work in the Town this year?

6/12/45

21/ A draft-letter is put up, accordingly.

22/ Sanctioned.

C I 69] Drainage scheme at Nanjya

Cont nuation Sheet | File No / Current No | of | Page

From the D.C. Nanjya vide
No A5 1173/43-44 dt 15/4/45
I ~~as~~ the information called for

subject

3) The D C Nanjya submitted ~~an estimate for~~ an estimate for Rs 1,00,545/- for the comprehensive Drainage scheme at Nanjya, the scheme is proposed to be ~~executed~~ financed equally by the govt and the local mel el in equal proportions

4) The estimate has been scrutinised by the C E for Irrigation to Rs 98,775/=

5) As seen from the records, the comprehensive estimate of Rs 98,775/- (as scrutinised by the C-E) consists of two estimates 1) for Rs 47,440 for taking up Drainage work in the Bamum extension and 2) for Rs 51,335/- for Eastern extension in Nanjya Town

6) The Nanjya Town mel el desires to take up I stage of the scheme costing Rs 20,000 in the ~~Eastern~~ Eastern Extension of the Town, in the first instance In order to meet their share of the cost of the 1st stage, it is reported, the mel el have made a provision of Rs 10,000

under the head "C" public works in the sanctioned budget. The scheme is proposed to be carried out in five stages

27) In the above circumstances, orders for undersigned:-

1) Sanction to an estimate for ~~Rs 98,775/-~~ Rs 98,775/- for taking up drainage work both in the Eastern and Southern extensions at Mandya, the cost being met by the Govt. & the local municipal council in equal proportion

A

2) Sanction to an estimate for Rs 20,000/- for taking up urgent works in the Eastern Extension as A I stage of the drainage scheme and

B

3) Sanction to a Govt grant of Rs 10,000 out of the ~~Rs~~ balance of Rs 20,000 available from out of this drainage grant for 44-45

MM
10/6/45

36) The proposals may be split into two parts viz. These proposals relate to the construction of sylk pattern drains for the Eastern and Bannur Extension in Mandya and the consolidated scheme for Rs.1,00,54b/-. Even in this Consolidated Scheme, only Sylk pattern Drains have been contemplated.

37) When Mandya new town was planned, the idea was to give underground drainage and consequently in the recent extension, no conservancy lanes were planned - Again, these sylk pattern drains are out of date and with frequent scavengers' strike it may be desirable, once for all, to introduce wherever possible underground drainage systems in lieu of this sylk pattern drainage. We manufacture drainage pipes and cement and as long as no costly outfalls are contemplated, underground drainage schemes would be quite good. The discharge after simple treatment as in many cases could be utilised for vegetable gardens

38) I would therefore respectfully suggest that instead of spending money on sylk pattern drains, we may get a comprehensive scheme for underground drainage and sanction the same. The Government grant to be given would then, in my opinion, have been more usefully spent

39) If, however, the above opinion is not agreed to the grant asked for may be given and the expenditure met from the allotment of 5 lakhs for improvement of towns and minor municipalities in the Budget I am separately requesting the Law Department to let me know

know the commitment against this grant

18/6

(b) An underground sewerage system, which was estimated to cost Rs 4 3/4 lakhs, was considered too costly for the town. The estimates now under consideration may be sanctioned. The Municipal council may be informed that the entire work may be carried out now without splitting it into stages. If the council agrees to the suggestion and is prepared to meet one half of the cost, the Govt will be glad to make a grant of an equivalent amount.

DEPUTATION OF SOME OF THE MUNICIPAL COUNCILLORS OF MANDYA TO WAIT ON THE MINISTER FOR AGRICULTURE

44) The marginally noted members of the Mandya Town Municipal Council propose to wait in deputation on the Minister for Agriculture to pray for enhanced grants towards the estimated cost of the underground drainage scheme, for the whole Mandya Town for which an estimate has been prepared for Rs. Rs.809230/- This is in accordance with the resolution dated 30th January 1946 The interview has been fixed at 4 P M. on Monday the 22nd April 1946.

45) The file bearing on the subject of the Drainage Scheme for Bannur Extension in Mandya Town is put up

46) A comprehensive scheme costing Rs.1,00,545/- for the drainage of the Bannur Extension only of Mandya Town was prepared by the Sanitary Engineer The Mandya Town Municipal Council resolved to take up the work in stages, the first stage costing Rs 20,000/- The estimate was scrutinized to Rs.98,775/- by the Chief Engineer for Irrigation. The Financial Secretary, who was consulted in the matter proposed that the work may be taken up in two parts. The Dewan was pleased to order that the entire work should be taken up now without splitting it up into stages and that, if the municipal council is agreeable to this proposal and to meet half the cost, Government would meet the other half by a grant to that extent. The Deputy Commissioner Mandya, was accordingly written to in this office letter dated 26th June 1945 to place the matter before the Mandya Town Municipal Council and his reply in the matter is awaited ~~To ask for more grants from Government~~ The estimate for drainage of the extensions is scrutinized for Rs 98,775/- and in the resolution of the municipal council the comprehensive drainage is stated to cost Rs 8,09,230/- It is stated to be for the whole town including extensions)

vide para 40 of the note

47) The D.C Mandya has been reminded in the matter vide the resolution of the M.C. now the estimate for Rs 8,09,230 has been received here as yet P T

Comprehensive Drainage Scheme - Mandya Town

6938/C

48) The financial ~~credit~~ condition of the Municipality according to the sanctioned Budget estimates for 1945-46 is as follows -

OFFICE OF THE MINISTER FOR AGRICULTURE
APR 16 1946
No 6492

Opening Balance		Rs 36,690
Receipts for 1945-46	..	1,13,200
Total	..	1,49,890
Expenditure for 45-46	.	1,33,505
Closing balance		16,385

Jdl 19/4

49) The above notes put up, for facilitating the discussion on the subject, as requested by the P.A. to the Minister for Agriculture in Dep't. The people with apt present, be sent to the P.A. for the interview is fixed for Monday the 22nd April 46 (4P.M.)

Revised 19/4/46

50) Noted 13/4/

P.A. to the Minister for Agriculture 19/4/46

51) The Municipal Councillors met me on the 26th April The Deputy Commissioner, the Executive ~~Offi~~ Engineer and other officers were present

52) The Municipal Councillors strongly urged that for an important and growing town like Mandya, surface drainage would be ~~unsuitable and~~ unsatisfactory and might prove obsolete in a very short period, thus entailing additional expenditure in the near future They pleaded for ~~xxx~~ sanction to a scheme of underground drainage for which an estimate had been prepared by the Sanitary Engineer

Mawya Rajamaya 6938

53) I pointed out to them that this was going to be ~~extremely~~ quite expensive and could not be considered unless the Municipality was prepared to undertake heavy additional commitments in regard to finance The President and Members represented' --

(1) that the actual cost of the work is likely to be much lower than the present estimate as the cost of materials will decline in the coming years, (This view was shared by the Executive Engineer)

(2) that the work ~~can~~ could be taken up in three stages, beginning with the Old Town, and all the three stages completed in the course of three years, 6492

(3) that they would be prepared to make a contribution of one-third of the cost of the scheme and that Government may bear the remaining two-thirds, and

(4) that they would undertake to pay their share of contribution --which may be advanced by Government/- as a loan, with interest thereon, in annual instalments of Rs 15,000/-

54) They have promised to submit the necessary resolutions of the Municipal Council very shortly These may be worked up expeditiously when received

Returned, with compliments -

2 The comprehensive estimate amounting to Rs 8,09,230/- is scrutinised It is in order

3 In view of the large expenditure of Rs 8,09,230/- involved in the comprehensive scheme and also of the slender resources of the Municipality, I am of opinion that it may be desirable to work out the scheme in stages as noted below -

I Stage work in old town portion including disposal works	Rs 2,32,288/-
II Stage works in Bannur road extension	Rs 1,43,520/-
III Stage works in New Extensions	Rs 4,33,422/-

Chief Engineer for
Roads & Buildings

Secretary to Government,)
Revenue Department)

V M S/19th.

82) The estimate for the comprehensive underground drainage scheme for Mandya Town has been scrutinised by the C E for Rds & Bldgs for Rs 8,09,230/-

83) The Mandya Town Mn Council have in their resolution dated 30 6 46 stated that the work may be taken up as per estimates prepared by the Sanitary Engr & they are agreeable to execute the scheme in three stages

84) The Mn Cl have also resolved that the cost of the

works may be met by the Govt & the mlty in the ratio of 3:1 and requested Govt for a grant of $\frac{3}{4}$ of the cost and pray for a loan equal to $\frac{1}{4}$ of the cost to meet the mlty share, to be repayable in 25 yearly instalments with 3% interest

85) The DC recommends sanction to the proposal

In the circumstances, posts for orders are:—

86) 1) Sanction to the estimate for Rs 8,09,230/— for the comprehensive underground drainage scheme of Mandya Town mlty, the scheme being worked out in 3 stages as follows:—

i) 1st stage work in old Town Portion including disposal works — Rs 232,288/-

ii) 2nd stage works in Banni mantapa exts — Rs 1,43,520/

iii) 3rd stage works in new exts — Rs 4,33,422

2) the cost of the works being borne by Govt and the mlty in the ratio of 3:1

3) Sanction to a Govt grant of $\frac{3}{4}$ of the cost of the estimate viz Rs 6,06,923/—

4) Sanction to a loan of $\frac{1}{4}$ of the cost of the estimate to the mlty viz Rs 2,02,307/—, repayable by the mlty in 25 annual yearly instalments, with 3% interest out of the income under action of the mlty

The annual octroi income amounts to Rs 25000/- to be enforced for the payment of the instalments

Sd/ for orders

26/3 Vol 57) Pl note the proposal for sanction of this mlty for Govt

Noting up for 29/3/61.

Mandya Underground drainage scheme 6351/L

) The abstract figs of the budget of the Mandya town Mutty for the year 1946-47 are as follows —

Opening Balance	Rs 32,464/-
Receipts	Rs 1,16,780/-
Total	Rs 1,49,244/-
Expenditure	Rs 1,21,631/-
closing Balance	Rs 27,613/-

89) The points for orders are noted in para 86 supra The Financial Secy/maybe consulted in regard to the grant of the loan in order to enable the need to meet the portion of the cost, if it proposed that the Govt might contribute three-fourths of the cost is accepted in the case of Shimoga underground drainage 3/4 of the cost has been ordered to be met by the Govt.

T.N. Accord to standing orders, the rate of interest charged to local bodies is 4 percent

90) Under the Postwar reconstruction schemes, the underground drainage of Mandya town is one of

the items (3) to be taken up. This
2610/14 has been approved by the Committee
on Finance & Co-ordination (vide

CIRCULATION NOTE

SUBJECT Underground drainage scheme for Mandya Town

These proposals relate to the construction of underground drainage in the Mandya Town at an estimated cost of Rs 8,09,230/-

During the year 1941, a comprehensive underground drainage scheme estimated to cost Rs 4,95,000/- was prepared for the Mandya Town but the same was deferred due to its heavy cost and a cheaper scheme for surface drainage work was contemplated at the time

Accordingly a comprehensive surface drainage scheme for the Mandya Town was prepared at an estimated total cost of Rs 1,00,545/-, comprising of Rs 49,210/- for the Bannur road extension and Rs 51,335/- for the Eastern extension The Mandya Town Municipal Coucil resolved to take up this work in stages The estimate was sarutinised and corrected to Rs 98,775/- by the Chief Engineer for Irrigation The then Financial Secretary who was consulted in the matter though of the opinion that it would be profitable to go in once for all for an underground drainage ~~and~~ suggested the taking up of the work in two ~~stages~~ parts, if it was decided to go on with the surface drainage scheme But the Dewan was pleased to order that the surface drainage scheme might be proceeded with, as the idea of having an underground drainage was once abandoned, and that the entire work may be taken up once for all without splitting it up into stages and that if the Municipal Council was agreeable to this proposal and to meet one half of the cost, a grant of an equivalent amount might be made by the Government Accordingly a reference was made to the Deputy Commissioner, Mandya District, to ascertain and intimate the views of the Mandya Town Municipal Council in this behalf

At this stage some members of the Mandya Town Municipal Council waited in deputation on the ~~late~~ former Minister for Agriculture on the 26th April 1946 to impress upon the Government the need for an underground drainage system in Mandya Town which is highly malarial and where many of the sites formed also are not provided with proper conservancy lanes in anticipation of having an underground drainage scheme The Municipal Councillors strongly urged that for an important and growing town like Mandya, surface drainage would be unsatisfactory and might prove obsolete in a very short period, thus entailing additional expenditure in the near future They pleaded for sanction to a scheme of underground drainage, which though it appeared expensive at the time, might eventually cost much lower than the estimate due to the possibility of the cost of materials declining in the coming years They also agreed to bear a fair and reasonable share of the cost to be mutually determined and ~~they~~ the deputationists were thereupon promised favourable consideration of the proposals by the Government when they were received

Accordingly a revised estimate for Rs 8,09,230/- for the underground drainage scheme for Mandya Town was prepared and submitted for sanction The Chief Engineer for Roads and Buildings, who has scrutinised the estimate has stated that it is in order but has suggested that it may be worked out in the following three stages -

I Stage work in old town portion, including disposal works	Rs 2,32,288/-
II stage work in Bannur road extensions	" 1,43,520/-
III stage work in the new extension	4,33,422/-

As regards the financing of the scheme, the Mandya Town Municipal Council at their meeting held on 14th May 1948 agreed that the cost of the work be shared

between the Government and the Municipality in the proportion of 2 1 and that a loan of Rs 2,69,743/- be sanctioned to the Municipality for meeting its sh of cost, the loan being repayable in 25 annual instalments carrying interest at 4% This arrangement has the concurrence of the Financial Secretary The Municipa Council has also agreed to earmark the realisations from the levy of octroi anticipated at Rs 45,000/- per year towards the repayment of the loan instalments

The Minister for L S G to whom the file was submi ted has been pleased to minute as follows -

> "Since the Municipal Council have resolved to set apart the entire realisation of octroi towards the repayment of the Government loan at 4% interest, the scheme may be sanctioned as recommended by the Deputy Commissioner, Mandya"

The Chief Minister and the Dewan having ordered the disposal of this question by circulation, this note is put up

The points for consideration and orders are -

1) sanction to the estimate for Rs 8,09,230/- for an underground drainage system for Mandya Town to be executed in three stages as referred to above

2) Sharing of the expenditure on the work between the Government and the Mandya Town Municipality in the proportion of 2 1, the Government share of the expenditure will be payable out of the Town Improvement Grar of the year concerned

3) Sanctioning a loan of Rs 2,69,743/-/-4 to the Mand Town Municipality to enable them to meet their share of the cost expenditure, repayable in 25 instalments and bearing interest at 4 % per annum

2/8/46

Revenue Secretary to Govt

CIRCULATION NOTE

SUBJECT Underground drainage scheme for Mandya Town

These proposals relate to the construction of underground drainage in the Mandya Town at an estimated cost of Rs.8,09,230/-.

During the year 1941, a comprehensive underground drainage scheme estimated to cost Rs.4,95,000/- was prepared for the Mandya Town but the same was deferred due to its heavy cost, and a cheaper scheme for surface drainage work was contemplated at the time.

Accordingly a comprehensive surface drainage scheme for the Mandya Town was prepared at an estimated total cost of Rs.1,00,545/-, comprising of Rs.49,210/- for the Bannur road extension and Rs.51,335/- for the Eastern extension The Mandya Town Municipal Council resolved to take up this work in stages. The estimate was scrutinised and corrected to Rs.98,775/- by the Chief Engineer for Irrigation. The then Financial Secretary who was consulted in the matter though of the opinion that it would be profitable to go in once for all for an underground drainage, suggested the taking up of the work in two parts, if it was decided to go on with the surface drainage scneme But the Dewan was pleased to order that the surface drainage scheme might be proceeded with, as the idea of having an underground drainage was once abandoned, and that the entire work may be taken up once for all without splitting it up into stages, and that, if the Municipal Council was agreeable to this proposal and to meet one half of the cost, a grant of an equivalent amount might be made by the Government. Accordingly a reference was made to the Deputy Commissioner, Mandya District, to ascertain and intimate the views of the Mandya Towr Municipal Council in this behalf

QUESTION NO. 67.

Underground drainage scheme for Sandya Town.

These proposals relate to the construction of underground drainage in the Sandya Town at an estimated cost of Rs.8,09,230/-.

During the year 1941, a comprehensive underground drainage scheme estimated to cost Rs.4,95,000/- was prepared for the Sandya Town but the same was deferred due to its heavy cost, and a cheaper scheme for surface drainage work was contemplated at the time.

Accordingly a comprehensive surface drainage scheme for the Sandya Town was prepared at an estimated cost of Rs.1,00,545/-, comprising of Rs.49,210/- for the Bannur road extension and Rs.31,735/- for the Eastern extension. The Sandya Town Municipal Council resolved to take up this work in stages. The estimate was scrutinised and corrected to Rs.99,775/- by the Chief Engineer for Irrigation. The then Financial Secretary who was consulted in the matter though of the opinion that it would be profitable to go in once for all for an underground drainage, suggested the taking up of the work in two parts, if it was decided to go on with the surface drainage scheme. But the Dewan was pleased to order that the surface drainage scheme might be proceeded with, as the idea of having an underground drainage was once for all without splitting it up into stages, and that, if abandoned, and that the entire work may be taken up if the Municipal Council agreeable to its proposal and to meet one half of the cost, a grant of an equivalent amount might be made by the Government. Accordingly a sum of Rs. was made to the Deputy Commissioner, Sandya District, to be certain the Municipal Council in this behalf.

At this stage some members of the Mandya Town Municipal Council waited in deputation on the former Minister for Agriculture on the 26th April 1946 to impress upon the Government the need for an underground drainage system in Mandya Town which is highly malarial and where many of the sites formed also are not provided with proper conservancy lanes in anticipation of having an underground drainage scheme The Municipal Councillors strongly urged that for an important and growing town like Mandya, surface drainage would be unsatisfactory and might prove obsolete in a very short time period, thus entailing additional expenditure in the near future. They pleaded for sanction to a scheme of underground drainage, which, though it appeared expensive at the time, might eventually cost much lower than the estimate, due to the possibility of the cost of materials declining in the coming years. They also agreed to bear a fair and reasonable share of the cost to be mutually determined and the deputationists were thereupon promised favourable consideration of the proposals by the Government when they were received.

Accordingly a revised estimate for Rs 8,09,230/- for the underground drainage scheme for Mandya Town was prepared and submitted for sanction The Chief Engineer for Roads and Buildings, who has scrutinised the estimate has stated that it is in order but has suggested that it may be worked out in the following three stages -

I	Stage work in old town portion including disposal works	Rs 2,32,288/-
II	stage work in Bannur road extensions	"1,43,520/-
III	stage work in the new extension	"4,33,422/-

As regards the financing of the scheme, the Mandya Town Municipal Council, at their meeting held on 14th May 1948, agreed that the cost of the work be shared -

out in the following three stages -

and Buildings, who has scrutinised the estimate has stated and submitted for sanction. The Chief Engineer for Roads the underground drainage scheme for Kandya Town was prepared

Accordingly a revised estimate for ₹ 8,08,230/- for

of the proposals by the Government when they were received. tionate were thereon promised favourable consideration share of the cost to be mutually determined and the depute- coming years. They also agreed to bear a fair and reasonable the possibility of the cost of materials declining in the right eventually cost much lower than the estimate, due to drainage, which, though it appeared expensive at the time, future. They pleaded for sanction to a scheme of underground period, thus entailing additional expenditure in the near satisfactory and might prove obsolete in a very short time and flowing town like Kandya, surface drainage would be municipal Councillors strongly urged that for an important subscription of having an underground drainage scheme. The formed also are not provided with proper conservancy lanes in Town which is highly unhygienic and here many of the areas ment the need for an underground drainage system in Kandya Circular dated 23th April 1946 to impress upon the Govern- Council sanctioned a deputation on the former matter for

At this stage so re bore of the anjya town municipal

between the Government and the Municipality in the proportion of 2 1 and that a loan of Rs.2,69,743/- be sanctioned to the Municipality for meeting its share of cost, the loan being repayable in 25 annual instalments carrying interest at 4%. This arrangement has the concurrence of the Financial Secretary. The Municipal Council has also agreed to earmark the realisations from the levy of octroi, anticipated at Rs.45,000/- per year towards the repayment of the loan instalments.

The Minister for Local Self Government to whom the file was submitted had been pleased to minute as follows -

> "Since the Municipal Council have resolved to set apart the entire realisation of octroi towards the repayment of the Government loan at 4% interest, the same may be sanctioned as recommended by the Deputy Commissioner, Mandya "

The Chief Minister and the Dewan having ordered the disposal of this question by circulation, this note is put up

The points for consideration and orders are

1) Sanction to the estimate for Rs.8,09,230/- for an underground drainage system for Mandya Town to be executed in three stages as referred to above.

2) Sharing of the expenditure on the work between the Government and the Mandya Town Municipality in the proportion of 2 1, the Government share of the expenditure will be payable out of the Town Improvement Grant of the year concerned.

3) Sanctioning a loan of Rs.2,69,744 to the Mandya Town Municipality to enable them to meet their share of the expenditure, repayable in 25 instalments and bearing interest at 4% per annum.

between the Government and the Municipality in the proportion of 2 . 1 and that a loan of Rs.89,743/- be sanctioned to the Municipality for meeting its share of cost, the loan being repayable in 25 annual instalments carrying interest at 4%. This arrangement has the concurrence of the Financial Secretary. The Municipal Council has also agreed to earmark the realisations from the levy of octroi, anticipated at s.45,000/- per year towards the repayment of the loan instalments

The Minister for Local Self Government to whom the file was submitted had been pleased to minute as follows -

"Since the Municipal Council have resolved to set apart the entire realisation of octroi towards the repayment of the Government loan at 4% interest, the same may be sanctioned as recommended by the Deputy Commissioner, Bandya "

The Chief Minister and the Dewan having ordered the disposal of this question by circulation, this note is put up

The points for consideration and orders are

1) Sanction to the estimate for Rs 8,09,230/- for an underground drainage system for Bandya Town to be executed in three stages as referred to above.

2) Sharing of the expenditure on the work between the Government and the "Bandya Town Municipality in the proportion of 2 1, the Government share of the expenditure will be payable out of the Town Improvement Grant of the year concerned.

3) Sanctioning a loan of s.2,69,744 to the Bandya Town Municipality to enable them to meet their share of the expenditure, repayable in 25 instalments and bearing interest at 4% per annum.

Secretary to Government

CIRCULATION NOTE

SUBJFCT. Underground drainage scheme for Mandya Town.

These proposals relate to the construction of underground drainage in the Mandya Town at an estimated cost of R.8,09,230/-.

During the year 1941, a comprehensive underground drainage scheme estimated to cost R.4,95,COC/- was prepared for the Mandya Town but the same was deferred due to its heavy cost, and a cheaper scheme for surface drainage work was contemplated at the time.

Accordingly a comprehensive surface drainage scheme for the Mandya Town was prepared at an estimated total cost of Rs.1,00,545/-, comprising of Rs.49,210/- for the Bannur road extension and Rs.51,335/- for the Eastern extension. The Mandya Town Municipal Council resolved to take up this work in stages. The estimate was scrutinised and corrected to R.98,775/- by the Chief Engineer for Irrigation. The then Financial Secretary who was consulted in the matter though of the opinion that it would be profitable to go in once for all for an underground drainage, suggested the taking up of the work in two ~~stages~~ parts, if it was decided to go on with the surface drainage scheme. But the Dewan was pleased to order that the surface drainage scheme might be proceeded with, as the idea of having an underground drainage was once abandoned, and that the entire ~~work~~ work may be taken up once for all without splitting it up into stages, and that, if the Municipal Councilwas agreeable to this proposal and to meet one half of the cost, a grant of an equivalent amount might be made by the Government. Accordingly a reference was made to the Deputy Commissioner, Mandya District, to ascertain and intimate the views of the Mandya Town Municipal Council in this behalf.

At this stage some members of the Mandya Town Municipal Council waited in deputation on the former Minister for Agriculture on the 26th April 1946 to impress upon the Govern ment the need for an underground drainage system in Mandya Town which is highly malarial and where many of the sites formed also are not provided with proper conservancy lanes in anticipation of having an underground drainage scheme. The Municipal Councillors strongly urged that for an important and growing town like Mandya, surface drainage would be unsatisfactory and might prove obsolete in a very short term period, thus entailing additional expenditure in the near future. They pleaded for sanction to a scheme of underground drainage, which, though it appeared expensive at the time, might eventually cost much lower than the estimate, due to the possibility of the cost of materials declining in the coming years. They also agreed to bear a fair and reasonable share of the cost to be mutually determined and the deputationists were thereupon promised favourable consideration of the proposals by the Government when they were received.

Accordingly a revised estimate for Rs.8,09,230/- for the underground drainage scheme for Mandya Town was prepared and submitted for sanction. The Chief Engineer for Roads and Buildings, who has scrutinised the estimate has stated that it is in order but has suggested that it may be worked out in the following three stages -

I. Stage work in old town portion including disposal works.	Rs.2,32,288/-
II stage work in Bannur road extensions	"1,43,520/-
III stage work in the new extension.	"4,33,422/-

As regards the financing of the scheme, the Mandya Town Municipal Council, at their meeting held on 14th May 1948, agreed that the cost of the work be shared

between the Government and the Municipality in the proportion of 2 1 and that a loan of Rs.2,69,744/- be sanctioned to the Municipality for meeting its share of cost, the loan being repayable in 25 annual instalments carrying interest at 4%. This arrangement has the concurrence of the Financial Secretary. The Municipal Council has also agreed to earmark the realisations from the levy of octroi, anticipated at Rs.45,000/- per year towards the repayment of the loan instalments.

The Minister for Local Self Government to whom the file was submitted had been pleased to minute as follows.-

> "Since the Municipal Council have resolved to set apart the entire realisation of octroi towards the repayment of the Government loan at 4% interest, the same may be sanctioned as recommended by the Deputy Commissioner, Mandya "

The Chief Minister and the Dewan having ordered the disposal of this question by circulation, this note is put up

The points for consideration and orders are:

1) Sanction to the estimate for Rs.8,09,230/- for an underground drainage system for Mandya Town to be executed in three stages as referred to above.

2) Sharing of the expenditure on the work between the Government and the Mandya Town Municipality in the proportion of 2 : 1; the Government share of the expenditure will be payable out of the Town Improvement Grant of the year concerned.

3) Sanctioning a loan of Rs.2,69,744 to the Mandya Town Municipality to enable them to meet their share of the expenditure, repayable in 25 instalments and bearing interest at 4% per annum.

Underground drainage scheme for Mandya T

These proposals relate to the construction of ground drainage in the Mandya Town at an estimated Rs.8,09,230/-.

During the year 1941, a comprehensive undergroun drainage scheme estimated to cost Rs 4,95,000/- was prep for the Mandya Town but the same was deferred due to it heavy cost, and a cheaper scheme for surface drainage was contemplated at the time.

Accordingly a comprehensive surface drainage sche for the Mandya Town was prepared at an estimated cost Rs.1,00,545/-, comprising of Rs.49,210/- for the Bann extension and Rs.51,335/- for the Eastern extension. Mandya Town Municipal Council resolved to take up in stages. The estimate was scrutinised and correc Rs.98,775/- by the Chief Engineer for Irrigation. T Financial Secretary who was consulted in the matter t of the opinion that it would be profitable to go in o all for an underground drainage, suggested the taking the work in two parts, if it was decided to go with the surface drainage scheme. But the Dewan was p to order that the surface drainage scheme might be proc with, as the idea of having an underground drainage was abandoned, and that the entire work may be taker once for all without splitting it up into stages, an orked if the Municipal Councilwas agreeable to this propos to meet one half of the cost, a grant of an equivale might be made by the Government. Accordingly a refer was made to the Deputy Commissioner, Mandya District, certain and intimate the views of the Mandya Town Mun Council in this behalf.

I cannot agree with the idea that the Mandya MC should earmark any particular item like octroi realisations towards repayment of the loan the MC ought to undertake to repay the loan at 4½% int in 25 annual instalments. The octroi may be there or not in future but there is no material concern for which the loan must be paid by the MC after the agreement
Jan D 2/5

At this stage some members of the Mandya Town Municipal Council waited in deputation on the former Minister for Agriculture on the 26th April 1946 to impress upon the Government the need for an underground drainage system in Mandya Town which is highly malarial and where many of the sites formed also are not provided with proper conservancy lanes anticipation of having an underground drainage scheme The Municipal Councillors strongly urged that for an important and growing town like Mandya, surface drainage would be unsatisfactory and might prove obsolete in a very short time period, thus entailing additional experditure in the near future. They pleaded for sanction to a scheme of underground drainage, which, though it appeared expensive at the time, might eventually cost much lower than the estimate, due to the possibility of the cost of materials declining in the coming years. They also agreed to bear a fair and reasonable share of the cost to be mutually determined and the deputationists were thereupon promised favourable consideration of the proposals by the Government when they were received.

Accordingly a revised estimate for Rs.8,09,230/- for the underground drainage scheme for Mandya Town was prepared and submitted for sanction. The Chief Engineer for Roads and Buildings, who has scrutinised the estimate has stated that it is in order but has suggested that it may be worked out in the following three stages -

SUBJECT: Underground drainage scheme for Mandya Town.

THE MINISTER FOR CITY MUNICIPAL AND PANCHAYATS
No 174
Date 9/8 1948

These proposals relate to the construction of underground drainage in the Mandya Town at an estimated cost of Rs.8,09,230/-.

During the year 1941, a comprehensive underground drainage scheme estimated to cost Rs.4,95,000/- was prepared for the Mandya Town but the same was deferred due to its heavy cost, and a cheaper scheme for surface drainage work was contemplated at the time.

Accordingly a comprehensive surface drainage scheme for the Mandya Town was prepared at an estimated cost of Rs.1,00,545/-, comprising of Rs.49,210/- for the Barrur road extension and Rs.51,335/- for the Eastern extension. The Mandya Town Municipal Council resolved to take up this work in stages. The estimate was scrutinised and corrected to Rs.98,775/- by the Chief Engineer for Irrigation. The then Financial Secretary who was consulted in the matter though of the opinion that it would be profitable to go in once for all for an underground drainage, suggested the taking up of the work in two stages parts, if it was decided to go on with the surface drainage scheme. But the Dewan was pleased to order that the surface drainage scheme might be proceeded with, as the idea of having an underground drainage was once abandoned, and that the entire work may be taken up once for all without splitting it up into stages, and that, if the Municipal Councilwas agreeable to this proposal and to meet one half of the cost, a grant of an equivalent amount might be made by the Government. Accordingly a reference was made to the Deputy Commissioner, Mandya District, to ascertain and intimate the views of the Mandya Town Municipal Council in this behalf.

Usually contribution by Govt is 60%. But in this case 2/3 & 1/3 by Govt of Mysore is proposed. This must not be a precedent for other municipalities. As a special case this may be sanctioned.

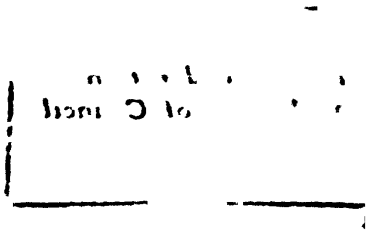
SUBJECT,- Underground drainage scheme for Mandya Town.

These proposals relate to the construction of underground drainage in the Mandya Town at an estimated cost of Rs.8,09,230/-.

During the year 1941, a comprehensive underground drainage scheme estimated to cost Rs.4,95,000/ was prepared for the Mandya Town but the same was deferred due to its heavy cost, and a cheaper scheme for surface drainage work was contemplated at the time.

Accordingly a comprehensive surface drainage scheme for the Mandya Town was prepared at an estimated total cost of Rs.1,00,545/- comprising of Rs.49,210/- for the Bannur Road extension and Rs.51,335/- for the Eastern extension. The Mandya Town Municipal Council resolved to take up this work in stages. The estimate was scrutinised and corrected to Rs.98,775/- by the Chief Engineer for Irrigation. The then Financial Secretary who was consulted in the matter though of the opinion that it would be profitable to go in once for all for an underground drainage, suggested the taking up of the work in two parts, if it was decided to go on with the surface drainage scheme. But the Dewan was pleased to order that the surface drainage scheme might be proceeded with, as the idea of having an underground drainage was once abandoned, and that the entire work may be taken up once for all without splitting it up into stages, and that, if the Municipal Council was agreeable to this proposal and to meet one half of the cost, a grant of an equivalent amount might be made by the Government. Accordingly a reference was made to the Deputy Commissioner, Mandya District, to ascertain and intimate the views of the Mandya Town Municipal Council in this behalf.



At this stage some members of the Mandya Town Municipal Council waited in deputation on the former Minister for Agriculture on the 26th April 1946 to impress upon the Government the need for an underground drainage system in Mandya Town which is highly malarial and where many of the sites formed also are not provided with proper conservancy lanes in anticipation of having an underground drainage scheme. The Municipal Councillors strongly urged that for an important and growing town like Mandya, surface drainage would be unsatisfactory and might prove obsolete in a very short period, thus entailing additional expenditure in the near future. They pleaded for sanction to a scheme of underground drainage, which, though it appeared expensive at the time, might eventually cost much lower than the estimate due to the possibility of the cost of materials declining in the coming years. They also agreed to bear a fair and reasonable share of the cost to be mutually determined and the deputation were there-upon promised favourable consideration of the proposals by the Government when they were received.

Accordingly a revised estimate for Rs.8,09,230/- for the underground drainage scheme for Mandya Town was prepared and submitted for sanction. The Chief Engineer for Roads and Buildings, who has scrutinised the estimate has stated that it is in order but has suggested that it may be worked out in the following three stages.-

	Rs.
I Stage work in old town portion, including disposal works .. .	2,32,288
II Stage work in Bannur road extensions	1,43,520
III Stage work in the new extension ...	4,33,422

As regards the financing of the scheme, the Mandya Tow Municipal Council, at their meeting held on 14th May 1948 agreed that the cost of the work be shared between the

Government and the Municipality in the proportion of 2 : 1 and that a loan of Rs.2,69,749/- be sanctioned to the Municipality for meeting its share of cost, the loan being repayable in 25 annual instalments carrying interest at 4%. This arrangement has the concurrence of the Financial Secretary. The Municipal Council has also agreed to earmark the realisations from the levy of octroi, anticipated at Rs.45,000/- per year towards the repayment of the loan instalments.

The Minister for L.S.G. to whom the file was submitted has been pleased to minute as follows:-

> " Since the Municipal Council have resolved to set apart the entire realisation of octroi towards the repayment of the Government loan at 4% interest, the scheme may be sanctioned as recommended by the Deputy Commissioner, Mandya".

The Chief Minister and the Dewan having ordered the disposal of this question by circulation, this note is put up.

<u>The points for consideration and orders are:-</u>

1. Sanction to the estimate for Rs.8,09,230/- for an underground drainage system for Mandya Town to be executed in three stages as referred to above.

2. Sharing of the expenditure on the work between the Government and the Mandya Town Municipality in the proportion 2 : 1, the Government share of the expenditure will be payable out of the Town Improvement Grant of the year concerned.

3. Sanctioning a loan of Rs.2,69,744/- to the Mandya Town Municipality to enable them to meet their share of the expenditure, repayable in 25 instalments and bearing interest at 4% per annum.

No 1202

Final note by the Minister for Local Self Government

Subject — Underground drainage scheme for Mandya Town.

(84) These proposals relate to the provision of an underground drainage system in the Mandya Town

(85) A comprehensive underground drainage scheme for Mandya Town at an estimated cost of Rs 4,95,000/- was prepared in the year 1941, but the same was deferred then due to its heavy cost, and a cheaper scheme of surface drainage was thought of.

(86) A comprehensive surface drainage scheme was thereafter prepared at an aggregate cost of Rs 1,00,545/- to include both the Bannur Road extension and the Eastern Extension. The estimate was scrutinised and corrected to Rs.98,775/- by the Chief Engineer for Irrigation The Mandya Town Municipal Council agreed with the scheme and desired its execution in stages. The Financial Secretary, though of the opinion that it would be profitable to go once for all for an underground drainage, suggested the taking up of the work in two parts if it was decided to go on with the surface drainage. But the Dewan was pleased to order that, as the underground drainage scheme was once - abandoned, the entire work on the sufface drainage scheme may be taken up once for all without spilitting it up into stages, and that if the Municipal Council agreed to meet one half of the cost, a grant of an equal amount might be made by the Government. A reference was made to the Deputy Commissioner to elicit the views of the Mandya Town Municipal Council on the above observations of the Dewan.

(87) At this stage some members of the Mandya Town Municipal Council waited in deputation on the former Minister for Agriculture on 26-4-1946 to impress the need for an underground drainage scheme in Mandya Town which is highly malarial and also where many of the recently formed sites are without conservancy lanes

(F N —contn)

which were not provided in the expectation of an underground drainage scheme soon coming into existence. The Municipal Councillors strongly urged that for an important and growing town like Mandya, surface drainage would be unsatisfactory and might prove absolete in a very short period , thus - entailing additional expenditure in the near future. They pleaded for a scheme of underground drainage which, though it may appear expensive at the time, might eventually cost less than the estimate due to the possibility of the cost of materials coming down in the coming years. They also agreed to bear a fair and reasonable share of the cost to be mutually determined, and the deputationists were thereupon promised favourable consideration of the proposals when received

/8/) Accordingly, a revised estimate for Rs 8,09,230/- for the underground drainage scheme was prepared and submitted for sanction The Chief Engineer for Roads & Buildings, who scrutinised the estimate, has approved of it and has suggested the execution of the work in the following three stages -

I Stage	Work in old town portion including disposal works.	Rs 2,32,288/
II Stage	Work in Bannur Road Extension	Rs 1,43,520/
III Stage	Work in the new extension	Rs 4,33,422/

/8 9/) The Mandya Town Municipal Council at its meeting held on 14-5-1948 has agreed to share the cost with Government in the proportion 1 2 and has asked for a loan from Government of - Rs 2,69,744/- for meeting its share of cost repayable in 25 - annual instalments and carrying interest at 4% The realisations from the octroi anticipated at Rs.45,000/- per year have been agreed to be earmarked towards the repayment of the loan instal-ments.

(F N --contn)

107) When the file was submitted to me, I minuted as follows -

para 167 of F. rules

"Since the Municipal Council have resolved to set apart the entire realisations of octroi towards the repayment of the Government loan at 4% interest, the same may be sanctioned as recommended by the Deputy Commissioner, Mandya".

C 108) The other Ministers to whom the file was circulated have agreed to the above proposals But the Minister for Finance

B and Industries while agreeing with the proposals generally has expressed the view that the Municipal Council ought to undertake to repay the loan at 4% interest in 25 instalments irrespective of the sources from which it is paid, as the ear-marking of a particular item of revenue like octroi, the realisations from which may vary from time to time may not prove a satisfactory arrangement. This view is accepted

109) I solicit the gracious approval of His Highness the Maharaja to the proposals for the provision of underground drainage system in Mandya town at an estimated cost of Rs 8,09,230/- and to meet the cost thereof in the manner indicated above.

R Chunnigarai

Minister for Local Self-Government.

Submitted to His Highness

89) I submit herewith a Final Note by the Minister for Local Self-Government on the proposals to sanction an estimate amounting to Rs 8,09,230/- for providing underground drainage system in Mandya Town and to grant a loan of Rs 2,69,744/- to the Mandya Town Municipal Council for meeting its share of cost repayable in 25 annual instalments and carrying interest at 4 per cent, for the gracious approval of His Highness

K Chengalaraya Reddy

Sir,

SUBJECT -Drainage Scheme in Bannur Extension,
Mandya Town

I have the honour to forward herewith the entire records on the above subject received from the President, Mandya Town Municipality with his report No O C 416/42-43 dated 9th December 1943 and to state that a comprehensive drainage scheme has been prepared at an estimated cost - of Rs 1,00,545/- by the Sanitary Engineer, with a view to provide proper drainage in Bannur Extension The President reports that the it is proposed to take up the 1st stage at an estimated cost of Rs 20,000/- and the Sanitary Engineer has been requested to get an estimate prepared for same The President requests sanction the comprehersive scheme ~~scheme~~ so as to enable the Municipal Council to work out the scheme stage by stage

I request you kindly to obtain sanction of Govt for the entire scheme The Sanitary Engineer has been requested to send a separate estimate for the first stage at an estimated cost of Rs 20,000/- to Government through the Director of Public Health Sanction may kindly be accorded to this also so that the first stage of work may be taken up during the current year

I have the honour to be,
Sir,
Your most obedient servant,

Sir,

Sub - Drainage scheme in Bannur Extension, Mandya Town

With reference to your letter No L7402/M1 74-43-9 dated, 20-1-44 calling for a further report on the above subject, I have the honour to state that the President, Mandya Municipality reports that the Municipal Council have resolved to take up the I stage of the scheme at an estimated cost of Rs 20,000/-

As regards the number of stages in which the entire scheme would be worked out, the President states that the entire scheme would be worked out in five stages and that the Municipal Council would meet the moiety of the estimated cost, the other half being met out of the town improvement grants

As this is an important work meant for the improvement of the Town, I request you kindly to obtain sanction of Government to the entire scheme and to taking up the I stage of the work during the current year as resolved by the Municipal Council

The plans and estimates are enclosed for kind reference and return when no longer required copy of the

Copy of report No A1 O C 416/42-43, dated, 18th Aug, 1944 from the President, Mandya Municipality to the Deputy Commissioner, Mandya District

Drainage scheme in Bannur Road Extension

With referende to your office letter No A5 1173/43-44, dated 14-8-44 for a further report on the above subject, I have the honour to state that as the schere costs a sum of Rs 1,00,545-0-0 according to the estimates prepared by the Sanitary Engineer, and as the Council have resolved to take up the firsr stage at a cost of Rs 20,000/- the entire scheme will have to be taken up at least in five stages as regards the ways and means of financing the scheme, unless the government favours the unicipality by giving munificent grants to meet at least half of the cost of the scheme, it will be not possible with the resources of this Municipality to carry on the entire scheme as this is an important work connected with the safety and well - being of the town people, I request you kindly to make a strong recommendation to government in this behalf As the Council is not functioning at present, definite opinion of the Council on the two point noted above cannot be obtained and submitted the connected plans and estimates accompany

Revenue Department, Bangalore.

Sir,

Subject, Drainage scheme of Mandya Town.

With reference to your D.O.letter No.L.10657 dated 9-4-1946 on the above subject, I have the honour to state that in the course of inspection of Mandya Town by the Minister for Agriculture during November 1945, he was pleased to observe that it is not worthwhile to undertake the surface drainage work. As the Municipal council were also anxious to extend the underground drainage scheme into the entire town, an estimate for Rs. 8,09,230/- has been got prepared by the Sanitary Engineer for providing underground pipe sewers, the work to be completed in 3 stages. The opinion of the Mandya Town Municipal council about the new scheme was called for

The President, Town Municipal council, Mandya has in his letter No Al.H C.8/45 dated 6-4-46 (copy enclosed) stated, that the subject was placed before the Municipal council at their meeting held on 30-1-46, and a resolution agreeing to the proposal to take up the scheme in three stages was recorded He has also reported that a deputation of Municipal councillors would wait on the Minister for agriculture in connection with Government grants required for the purpose and that a date for an interview has been asked for

I have the honour to be,

Dear Sir

I am to invite your kind reference to my D.O. letter of even number dated 29-4-46 requesting you to let me know the date on which the Dewan Sahib will be pleased to grant an interview to the Municipal Councillors in connection with the Government Grant for the Under-ground Drainage Scheme, and to state that so far no reply has been received in this behalf. As the matter is of a very urgent nature and the Drainage work has to be put on hand very early, I request you kindly to favour me with your reply in the matter.

Thanking you,

Yours Sincerely,
H. Hombaiya

To

C. Narasimha Murthy, Esq., M.A.,
Private Secretary to the Dewan,
Bangalore.

The file relating to the underground drainage scheme of Mandya Town is submitted herewith as desired

23/5/46

It is understood that they have seen the Minister for Agriculture and explained their views in detail If they have any

further representation I make I shall
be glad to see them on the 15th June
at 9 P.M.

MH

No 3995/45-46 Bangalore,

29th May 1946

Dear Sir,

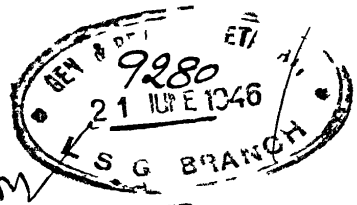
With reference to your request for an interview for the Municipal Councillors of Mandya Town with the Dewan, I am desired to state that it is understood that you have seen the Minister for Agriculture and explained your views in detail If you have any further representations to make the Dewan will be glad to see you and the Members at the Public Offices at 3 P M on Saturday, the 15th June

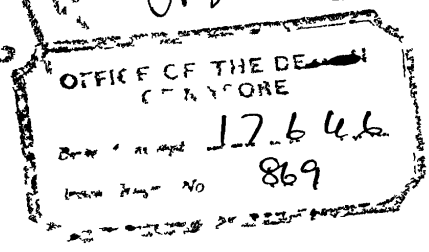
Yours sincerely,

(sd) C NARASIMHA MOORTY

" Copy "

H Ponnaiya, Esq ,
President,
Town Municipal Council,
MANDYA





To

The Dewan Sahib,

Government of Mysore, Bangalore,

Camp MYSORE.

Respected Sir,

We, the Municipal Councillors of Mandya Town beg to bring the following representations to your kind consideration and for favourable orders.

This Mandya town is a District Head quarters town, having the Major Municipality and comprising vast extensions. The annual income of the Municipality will be about Rs.1,16,780/- as per budget for 1946-47. The expenditure will be Rs.1,21,631/- leaving a Closing Balance of ~~Rs.2x~~ Rs.27,613/- only. The Receipts and Expenditure of this Municipality as per Sanctioned Budget for 1945-46 are shown as follows.

RECEIPTS		EXPENDITURE	
A. Municipal rates and taxes.	Rs.62,850/-	A. General Administration	Rs 23,280/-
B Realization under Special Acts.	500/-	B. Public Safety	3,125/-
C. Revenue derived from Municipal property and powers apart from taxation	25,150/-	C. Public Works carried out by Public Works Department.	10,000/-
D Grants and Contributions including Municipal High School.	16,200/-	D Public Works carried out by Civil Department including slum clearance.	19,080/-
E. Miscellaneous.	1,100/-	E. Public Health & Conveniences.	22,780/-
F Public Debt.	1,400/-	F. Public Instructions & Contributions.	17,975/-
		G. Contributions in private	275/-
		H. Miscellaneous.	1,900/-
		I. Public Debt.	1,100/-
Rs	1,13,200/-	Rs.	1,33,505/-

p.t.o.

Opening balance.	Rs.	36,690-0-0
Receipts.		1,13,200-0-0
Total	Rs.	1,49,890-0-0
Expenditure.		1,33,505-0-0
Closing Balance	Rs.	16,385-0-0

An estimate of Rs.8,09,230/- has been sanctioned for the Under ground Drainage Scheme of this Municipality. This Scheme is broadly divided as follows -

I Stage (Mandya old town)	Rs	2,32,288/-
II Stage (Bangur Road extensions)		1,43,520/-
III Stage (New extensions)		4,33,422/-
Total	Rs.	8,09,230/-

In this connection, we may be kindly permitted to state that during the inspection of this town by the Minister for Agriculture on 26-11-45, the question of taking up the Under ground Drainage work was considered. The Minister was pleased to express that Under ground drains are desirable in preference to Surface Drains.

As this place is Malarial it is very much essential from the point of view of health to undertake Under ground drainage scheme. Further, the sites of this town were formed without the Conservancy lanes in view of the introduction of Under ground drainage scheme into this town.

Accordingly the comprehensive under ground drainage scheme prepared during the year 1941 is now revised providing current market rates suitable to the locality and it amounts to Rs.8,09,230/-.

By the time the three stages of drainage scheme are completed the market rates may probably go down and the total estimated amount may be still reduced. In the foregoing circumstances this drainage work can be taken up with the aid of the Benign Government.

contd.

In view of the heavy recurring expenditure of this Municipality, as explained above it is not possible to meet the expenditure towards this Under ground drainage scheme.

We, therefore beg to approach you to kindly favour us with a grant of Rs. 6,06,172/- of the estimated amount and a loan of Rs. 2,03.058/- as has been sanctioned in the case of Shimoga Town. The loan will be re-payable in 22 annual instalments of Rs.10,000/- each. Tnis loan amount will be met from the collection of Octroi.

We beg to remain,
Respected Sir,
Your most obedient servants,

M A Singh
H. Hameed Sahib
T.B.H. Ahmed.

Secretary to Government,
Revenue Department,
Bangalore

Sir,

Re Drainage scheme, Mandya town

In continuation of my letter No A5-1173 dated 23-4-46 on the above subject, I have the honour to enclose herein the file of records received with report No A1111 C 8/45-46 dated 6th April 1946, from the President, Town Municipal Council, Mandya for favour of your reference and to state as follows

Mandya Town gained all importance after the formation of a separate District with Maniva as head-quarters during the year 1939 This has necessitated the provision of special amenities in the Town The Town Municipality is still in the forming and the Municipal Council have been finding it extremely difficult to meet the growing needs of this growing town The development of the Town has practically out-grown the resources of the Municipality and the Municipal Council have been doing their best to improve their resources and to meet the increasing needs of the town, but it will take some time before they can build up funds for expenditure on large schemes of permanent improvement

As already explained, in my letter adverted to above, the question of providing surface drainage to the town as was previously proposed has to be dropped in view of the situation of the town in the midst of channel irrigated areas and consequent water logging The present comprehensive scheme of underground drainage has been prepared at the suggestion of the Minister for Agriculture in the course of his inspection of the Town on 26-11-45 The existing drainage system in the town does not lend itself to any improvements to suit the present day conditions The town extension which has out-grown to size of the old town, ~~lay out,~~ has been designed with the idea of introducing under-

Under-ground sewage system Conservancy lanes have therefore not been laid out in the approved town extension plan. Many houses have been built in the extension and sites are being disposed off accordingly The new extensions are without any proper system of drainage at present As the District headquarter town, situated on the Mysore - Bangalore road, Mandya is frequently visited by many distinguished persons The existing drainage system in the Town is anything but satisfactory and the immediate need for taking up the under-ground drainage scheme in the interest of the health of the town need not be stressed too much

An estimate for Rs 8,09,250/- to be taken up in three stages, has been furnished by the Sanitary Engineer While the Municipal Council are very keen on working out the scheme, they are not at present in a position to finance the same, in spite of its urgency, as already explained The town is mostly occupied by Government Officers and Lawyers and the importance of the town is mainly due to the Sugar Company and the Government Offices In view of the importance of the town and the immediate need for the under- ground sewage system, it is hoped that the Government should very graciously come to the relief of the Municipal Council in achieving this important scheme of improvement

The Municipal Council have resolved at their meeting held on 30-6-45 to request the Government for an out-right grant of 3/4 of the estimated cost of the scheme and a loan of the remaining amount repayable in 25 instalments with interest at 3½ per annum on the security of the annual Octroi income of the Municipality which is about Rs 25,000/- at present It is apparent that if the Shimoga town Municipality was shown similar consideration by Government I recommend therefore that the grant of the Municipal Council, may kindly be considered favourably and the grant of the loan asked for by them may sanctioned so that they may be able to materialise

MUNICIPAL OFFICE
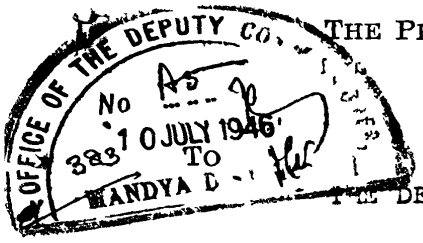
Mandya dated 10th July 1946

FROM



THE PRESIDENT,
TOWN MUNICIPAL COUNCIL,
MANDYA

TO

THE DEPUTY COMMISSIONER,
MANDYA DISTRICT,
MANDYA

SIR,

Subject - Underground drainage scheme for Mandya Town

I have the honour to state that this Mandya Town is a District Head Quarters town having for it a Major Municipality and comprising vast extensions. The annual income and expenditure of the Municipality will be about Rs 1,16,780/- and Rs 1,21,631/- respectively as per budget for the year 1946-47 A statement showing the receipts and expenciture of the Municipality for the year 1945-46 is herein enclosed for favour of kind perusal Now, the closing balance of this Municipality is Rs.17,165-15-1.

Since this is a newly formed and rapidly growing district head-quarters town and many items of Improvement works such as formation and consolidation of roads, conservancy lanes, construction of culverts,circles, and other works of public importance have to be executed, a considerable portion of the income of the Municipality will have to be expended over these

During the inspection of this town by the Minister for Agriculture on 26-11-45, the question of taking up the Underground Drainage scheme was considered and he was pleased to suggest that underground drains are desirable in preference to the surface drains for this town As this place is malarial it is very much essential from the point of view of health of the public of this town to undertake to introduce the underground drainage scheme into this town Further, the sites of this town were formed without the conservancy lanes in view of the introduction of the underground drainage scheme.

In these circumstances, the comprehensive underground drainage scheme prepared during the year 1941 has now been revised by the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore, providing current market rates suitable to the locality and it amounts to Rs 8,09,230/- This estimate has been sanctioned by the Municipal Council at their meeting held on 30-5-46 This scheme is broadly divided by the Sanitary Engineer as follows

Ist Stage (Mandya old town)	Rs.	2,32,288/-
2nd stage(Bannur road extn)		1,43,520/-
3rd stage (New extensions)		4,33,422/-
Total	Rs.	8,09,230/-

p-t.o.

By the time the three stages of the Drainage schem are completed, the market rates may probably go down and this total estimated amount may be reduced.

In view of the heavy recurring expenditure and also the amount to be spent on Improvement works as explained above, it is not possible to meet the expenditure towards the underground drainage scheme, and the fact this work has to be taken up only with the help of the Benign Government. I and the Municipal Councillors of this town had gone on a deputation to the Dewan Sahib at his " LAKE VIEW " in Mysore on 15-6-46, and he was graciously pleased to promise that he would help us with the grant and loan to carry on this work, as has been done in the case of Shimoga Town Municipality.

The Municipal Council of this town at their meeting held on 29-6-46 expressing the urgency and desirability of the introduction of the underground drainage schem into this town have passed a Resolution as has been done in the case of Shimoga Town to request the Benign Government to kindly sanction 3/4 of the total estimated cost of Rs.8,09,230/- for the underground drainage scheme by way of grant and the remaining 1/4 of the estimated cost by way of loan repayable in 25 annual instalments with interest at 3% by having income under Octroi of this Municipality as security for the loan.

I, therefore request you kindly to recommend to Government for favour of according sanction to the grant and the loan as resolved by the Municipal Council.

The connected records accompany as per pherist for favour of reference.

I have the honour to be,
Sir,
Your most obedient servant,

H. Hanumanta
PRESIDENT,
Town Municipal Council,
Handya.

Sir,

Subject:- Under-ground drainage Scheme for Mandya Town

With reference to your letter No L 2251/R. dated 8th August 1946 on the above subject, I have the honour to state as follows -

28/8

The Sanitary Engineer has prepared the estimate and also a plan of the proposed drainage so as to be worked out in three stages as follows -

First Stage =	For the Mandya Old Town.	Rs.2,32,288/-
Second Stage=	For the Bannur Road Extension	Rs 1,43,520/-
Third Stage =	For the New Extension	Rs.4,33,422/-
		8,09,230

It will be clear from the plan that the lay-out of the drainage is indicated and detailed estimates for each section as well as an abstract estimate have already been enclosed in the records If any more details are required, the Sanitary Engineer may kindly be addressed The Municipal Council in the resolution dated 30th June 1946 have stated that the work may be taken-up as per estimates prepared by the Sanitary Engineer and the latter has prepared the estimate so as to be worked out the same in three stages The Municipality is therefore agreeable to execute the scheme in three stages as per advice of the Sanitary Engineer

Under-ground drainage is an urgent necessity for Mandya town and it has been pending for too long a time. I request you kindly to obtain early orders of Government as per

P T O

per recent telegram already submitted by me.

The enclosures accompany.

Dear Sir,

I am desired to request you to kindly intimate whether the Mandya Town Municipality is provided with a protected water supply, and whether the present supply of water is adequate for flushing arrangements of the underground drainage system now introduced into the town. Your reply may be sent within three days, as the construction of the underground drainage at Mandya which is pending for want of this information

Yours faithfully,

To
The Secretary
Municipal Council
Mandya

L 13627-8/19-2-48 (City Municipal Council)
Copy with the C E for R & B. and Ho & C.
Mandya Dt for information

GENERAL AND REVENUE SECRETARIAT.

Dated, Bangalore, 19 February 1943.

D O No C' 13626

Dear Sir,

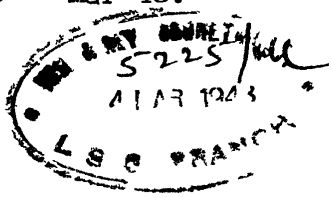
I am desired to request you to kindly intimate whether the Mandya Town Municipality is provided with a system of protected water supply and whether the present supply of water is adequate for flushing arrangements if the under ground drainage system is introduced into the town. Your reply may be sent within seven days as the proposal for the construction of under ground drainage at Mandya which is pending for a long time is held up for want of this information.

Yours sincerely,

Sanatary Engineer,
Bangalore.

K S. Krishnaswamy Esq, B E ,
Sanitary Engineer

Bangalore,
dated 30 Mar 48.



D.O NO. 2190

Dear Sir,

I am in receipt of your kind D O letter No 13626 dated 19-2-48 requiring certain particulars of the Mandya Water Supply in connection with the underground drainage scheme to Mandya Town An immediate reply could not be sent as some of the particulars had to be verified.

The Mandya town Municipality is provided with a system of protected water supply and the maintenance is under the charge of the Municipality The present population of Mandya town is about 12000 and the total quantity of water supplied per day is 1,92000 gallons which works out to a supply of 16 gallons per head per day The pumping unit is working for 20 hours a day

For an efficient scheme of underground drainage at least 20 gallons of water per head per day are necessary. This quantity can, however be supplied by increasing the pumping hours to 24

Mandya is a growing town and any scheme of water supply or under-ground drainage will have to accomodate the increase in population For purposes of calculation, the prospective population of Mandya town can be taken as 18000 and the total quantity of water required per day at 20 gallons per head per day will be 3.6 lakhs A scheme for improving the existing water supply to Mandya is under preparation and will be sent to the Muncipal President shortly. I am of opinion that the underground drainage scheme may be taken up.

Yours sincerely,

2nd

G Ramachandra Rao Esq, B A ,
Secretary to Govt ,Rev Department

Re:- Under ground drainage scheme of the Mandya Town Municipal Council.

With reference to your Memo No A5 1173/46 dated 17-4-48

P T O

forwarding copy of letter No. L. 15657 dated 7-4-48 received from the Secretary to Government Revenue Department, Bangalore regarding the above and calling for a resolution of the Municipal Council as desired therein, I have the honour to state that the Municipal Council at their adjourned general meeting held on 14-5-48 while agreeing with the proposal of the Government to bear 1/3 of the total cost of the Scheme as also for the payment of interest at 4% as mentioned, were also of opinion that as as the work was one of immediate importance that the work should be arranged to be undertaken immediately as was represented to the Dewans and Ministers during their visits to Mandya Town. It was further opined by the Council that the Government should be addressed to accord early sanction to the grant of the loan, so as to enable the work being taken up expeditiously.

The members of the Council were also of opinion that the President after consulting should interview the Chief Minister to the Government of Mysore on a date convenient for the same and to move with the Chief Minister for according early approval and sanction to the grant of loan as already asked for, for taking up the under ground drainage scheme in Mandya Town. Separate action is taken by me, to to consult the Chief Minister about thedate convenient for the interview

An extract of the Council's resolution No C R,226/47 dated 14-5-48 is herewith ~~xxxxxxxx~~ enclosed for favour of perusal.

In these circumstances, I request that early sanction of Government may kindly be obtained for the grant of the loan required for the work-as already asked for and to communicate the same early.

ABSTRACT

OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

Subject:-

Correspondence ending with letter No.A5-1173/46-47 dated 3rd July 1948 from the Deputy Commissioner, Mandya District, forwarding proposals with plans and estimates for the provision of an underground drainage system in Mandya Town at an estimated cost of Rs.8,09,230/-.

2. Unofficial Note No.309 dated 21st March 1947 from the Chief Engineer for Roads and Buildings on the subject.

ORDER NO: A 3602-6/Sch 50-46-31 5-10-48

Dated, Bangalore, the

A comprehensive underground drainage scheme for the Mandya Town at an estimated cost of Rs.4,95,000/- was prepared in the year 1941 but the same was deferred then, due to its heavy cost and a cheaper scheme of surface drainage being contemplated at the time.

A comprehensive surface drainage scheme was thereafter prepared at an aggregate cost of Rs.1,00,545/- to include both the Bannur Road extension and Eastern extension. While details were being worked out to implement this scheme, the Municipal Council, Mandya Town, represented to the Government the need for an underground drainage scheme in the town which is highly malarial, pleading that for such an important and growing town, surface drainage would be unsatisfactory and might prove obsolete in a very short period, entailing an additional expenditure in the near future.

Accordingly, a revised estimate for Rs.8,09,230/- for an underground drainage system was prepared based on the prevailing schedule of rates and was submitted for sanction. The Chief Engineer for Roads and Buildings who scrutinised the estimate while approving it, has suggested the execution of the work in the following three stages.-

I Stage:	Work in old town portion including disposal works.	Rs. 2,32,288/-
II Stage:	Work in Bannur Road Extension.	" 1,43,520/-
III Stage:	Work in the New Extension.	" 4,33,422/-

The Mandya Town Municipal Council at its meeting held on 14th May 1948 has agreed to share the cost with Government in the ratio of 1 : 2 and has sought for a Government loan of Rs.2,69,744 for meeting its share of cost repayable in twenty five annual instalments and carrying interest at 4%. The realisationsfrom octroi anticipated at Rs.45,000/-.

OF THE GOVERNMENT OF HIS HIGHNESS
THE MAHARAJA OF MYSORE

per annum are proposed to be earmarked for payment of the loan instal ments and interest.

Government consider that in the interest of the health and convenience of the inhabitants of Mandya Town which has of late grown acutely malarial, it is necessary to sanction the underground drainage scheme in question. They are accordingly pleased to sanction the estimate for Rs.8,09,230/- in this behalf, the work being executed in three stages in the manner indicated above, and the payment of a grant of Rs.5,39,486 from out of the Town Improvement Grants towards meeting the new Government share of the cost, distributed proportionately over the years duri which each stage of the work is actually executed. A loan of Rs.2,69,744 is also sanctioned to the Mandya Town Municipality to meet its share of the cost. The same will be repayable in twenty five annual instalments and will carry interest at 4%. The loan will be repayable from the general funds of the Municipality without reference to the receipts from any particular item like octroi which may fluctuate from time to time.

The Deputy Commissioner, Mandya District, xx is requested to see that necessary provision is made in the annual Budget estimates of Mandya Town Municipality for the payment of the loan instalments.

The Deputy Commissioner, Mandya District and the Chief Engineer for Roads and Buildings are requested to take immediate necessary action for the early execution of the work.

For Revenue Secretary to Government.

ORDER No L 3602 6– ML 50 46 31, DATED BANGALORE, THE 5TH OCTOBER 1948

A comprehensive underground drainage scheme for the Mandya Town at an estimated cost of Rs 4,95 000 was prepared in the year 1941 but the same was deferred then, due to its heavy cost and a cheaper scheme of surface drainage being contemplated at the time

A comprehensive surface drainage scheme was thereafter prepared at an aggregate cost of Rs 1,00 545 to include both the Bannur Road extension and the Eastern extension While details were being worked out to implement this scheme, the Municipal Council, Mandya Town, represented to the Government the need for an underground drainage scheme in the town which is highly malarial, pleading that for such an important and growing town, surface drainage would be unsatisfactory and might prove obsolete in a very short period, entailing an additional expenditure in the near future

Accordingly a revised estimate for Rs 8 09 230 for an underground drainage system was prepared, based on the prevailing schedule of rates and was submitted for sanction The Chief Engineer for Roads and Buildings who scrutinised the estimate, while approving it has suggested the execution of the work in the following three stages —

	Rs
I Stage —Work in old town portion including disposal works	2 32 288
II Stage —Work in Bannur Road Extension	1 43 520
III Stage —Work in the New Extension	4 33 422

The Mandya Town Municipal Council at its meeting held on 14th May 1948, has agreed to share the cost with Government in the ratio of 1 2 and has sought for a Government loan of Rs 2 69,744 for meeting its share of cost repayable in twenty five annual instalments and carrying interest at 4 per cent The realisations from octroi anticipated at Rs 45 000 per annum are proposed to be earmarked for the payment of the loan instalments and interest

Government consider that, in the interest of the health and convenience of the inhabitants of Mandya Town which has of late grown acutely malarial, it is necessary to sanction the underground drainage scheme in question They are accordingly pleased to sanction the estimate for Rs 8,09,230 in this behalf, the work being executed in three stages in the manner indicated above, and the payment of a grant of Rs 5,39,186 from out of the Town Improvement Grants towards meeting the Government share of the cost, distributed proportionately over the years during which each stage of the work is actually executed A loan of Rs 2,69,744 is also sanctioned to the Mandya Town Municipality to meet its share of the cost The same will be repayable in twenty five annual instalments and

179828/16/6

will carry interest at 4 per cent The loan will be repayable from the general funds of the Municipality without reference to the receipts from any particular item like octroi which may fluctuate from time to time

The Deputy Commissioner Mandya District, is requested to see that necessary provision is made in the annual Budget estimates of Mandya Town Municipality for the payment of the loan instalments

The Deputy Commissioner, Mandya District and the Chief Engineer for Roads and Buildings are requested to take immediate necessary action for the early execution of the work

SYED ABDUL ALEEM,

Secretary to Government,
Revenue Department

To—The Deputy Commissioner Mandya District with records
The Chief Engineer for Roads and Buildings in Mysore
The President Mandya Town Municipal Council
